As of March 2026

Statement on Five PBT Chemicals under TSCA section 6 (h)

The United States Environmental Protection Agency (EPA), which is considered the counterpart of the European Chemicals Agency (ECHA), established the rules of the Toxic Substances Control Act (TSCA) Section 6 (h) on January 6, 2021.

This regulation aims to reduce the levels of five persistent, bioaccumulative, and toxic (PBT) chemicals and became legally effective in the US in March 2021. Two of the five chemicals are already classified in Europe by REACH/SVHC or POP (as of June 2021). Three other substances have not yet been included in the ECHA SVHC list.

Hereby we confirm that the chemicals listed below are not present in our delivered products to the best of our knowledge.

1. 2,4,6-Tris(tert-butyl)phenol (2,4,6-TTBP, CAS 732-26-3)
2. Decabromodiphenyl ether (DecaBDE, CAS 1163-19-5)
3. Phenol, isopropylated phosphate (3:1) (PIP 3:1, CAS 68937-41-7)
4. Pentachlorothiophenol (PCTP, CAS 133-49-3)
5. Hexachlorobutadiene (HCBd, CAS 87-68-3)

No liability can be assumed for information and uses that are beyond our knowledge or that of our suppliers.

We will gladly help you with any questions you may have.
